- AI in Security & Cyber Defense
- Cyber Resilience, Privacy, and Digital Trust
- AI in Medical Applications
- AI for Smart Cities, Industry, and IoT Systems
- AI in Education and Society
- AI for Business Analytics and Financial Technologies

VISION, MISSION, MESSAGE

- To become a premier international hub for advancing responsible AI innovation and fostering resilient digital ecosystems that empower societies and industries in an era of rapid technological transformation.
- To promote impactful research, enhance global collaboration, and support the development of secure, intelligent, and sustainable AI-driven systems. The conference seeks to bridge the gap between academia, industry, and government by providing a platform for dialogue, innovation, and future-oriented strategies that address both AI opportunities and cybersecurity challenges.
- In a world increasingly shaped by AI and digital connectivity, innovation must go hand in hand with resilience. This conference sends a clear message: the future of technology depends not only on intelligent systems but also on our ability to secure them. By uniting thought leaders and innovators from diverse fields, we aim to build a safer, smarter, and more resilient digital future for all.

HIGHER COMMITTEES
